OPEN FORUM
- Suggestions
  - Maintenance on the trees in GFH Villages to remove dead branches to avoid damage
    - Submit an iService through PPD website
  - Additional drying racks in the villages
    - GFH has a contract with the laundry machines where the money we used are brought in back as programming money for the villages
    - It is just not logistically feasible to install more drying racks in the villages right now
  - There have been several reports of stolen bikes in the villages over the summer
Encourage students to register their bikes and all their properties with serial numbers with UPD

- If you want your properties secure do not store them outside
  - Can the bike racks exposed to the elements be moved under the stairs away from the rain and sun?
  - Can the volleyball net in Corry village be fixed?

ANNOUNCEMENTS (1 min each):
- GFH Storage Closets is currently running. MC is able to store things and everything that has a large dollar value amount will be tracked through HMS.
- Monthly residents meetings should be run by MC, CAs are only there for presence and to provide food.
