4. Encouraged residents to participate in these events
5. Updated on robbery event and handed over to Mr. Germain and UFPD for follow-up.

GFH updates:

Housing Update

- The meeting was dedicated to the robberies’ case that happened in Corry Village a week ago.
- Officer Wagner and Detective Moran from the University Police Department were present and gave an update on the case. The individual was arrested and admitted to the robberies. They also reminded residents to contact the police anytime they think a person/situation looked suspicious.
- RLC Germain shared the following with the residents:
  - Reminder about the housing protocol when it comes to access to apartments by staff (see below). He encouraged residents to report situations where those protocols were not followed.
RLC Germain thanked the victims and the witnesses in this case since their behaviors allowed the case to be resolved quickly. RLC Germain also encouraged residents to get to know their neighbors since this specific case and quick resolution was a good example of great neighbor’s relationship.

RLC Germain responded several questions about safety and security. He told residents that, in the May/Summer Issue of the GHF newsletter, there will be 2 articles addressing personal safety as well as parcel security.

**Reasons why staff needs to enter student apartments:**

- A resident initiates an iService request to get something fixed in the apartment.
- Housing schedules a routine visit (such as smoke detector, a/c filter, etc…). In this case, residents are notified of the dates and times.
- For emergency purposes related to the health and safety of residents or the safety of the facility.
- If residents are not present when staff enter an apartment, staff leaves a yellow slip explaining the purpose of the visit.
